EDITORIAL

Dear Readers;

We are very pleased and honored to present the first issue of our journal for 2024. In this issue, there are a total of 15 articles, comprising 12 research articles, 2 case reports, and 1 review article.

Dear readers, I would like to provide you with brief information about the statistics of our journal in 2022. Throughout the year, a total of 286 articles were submitted to our journal, out of which 75 were accepted. During this process, our article rejection rate stood at approximately 74%. Of the 211 rejected articles, 8 were withdrawn by the authors, 32 were rejected following the "Referee Evaluation Process," and 171 did not pass the "Preliminary Evaluation Phase." In the Preliminary Evaluation Phase, the report prepared by the relevant field editors regarding the submitted articles is evaluated by the Editorial Board during the weekly meeting. At this stage, decisions are made on whether to initiate the "Referee Evaluation Process" for the article. Articles rejected at this phase are returned to the authors with a clear explanation of the reasons for rejection.

Dear readers, in the last quarter of 2023, as we prepared the first issue for 2024, we unfortunately faced a human tragedy. In the conflicts between Palestine and Israel, many innocent people and civilians lost their lives. Attacks on hospitals, universities, and schools in the Gaza Region deeply affected and wounded all of humanity. We sincerely hope that this human tragedy in the region will end and reach a resolution as soon as possible, and that such conflicts will never happen again.

Dear academicians, I would like to emphasize that we would be honored to publish your valuable articles, and we look forward to receiving your submissions. On this occasion, I express my gratitude to those who contributed to the preparation of our journal, our authors who contributed scientifically, and I extend my sincerest regards to all of you with the belief that it will significantly contribute to the world of science.

Sincerely,

Dr. Levent ALTINTAŞ

Editor in Chief
