EDITORIAL

Dear Readers;

We are very pleased and honored to present the first issue of our journal for the year 2024. In this edition, we bring to you a total of 15 articles, comprising 13 research articles, and 2 case reports.

Dear readers; I would like to provide you with a brief overview of our journal's statistics for the year 2023. During that year, a total of 187 articles were submitted to our journal, with 36 being accepted. Throughout this process, our article rejection rate was determined to be approximately 80%. Of the 187 articles submitted to our journal, 166 were "Research Articles", 14 were "Case Reports", 5 were "Short Papers" and 2 were "Review Articles". Out of the 151 rejected articles, 13 were withdrawn by the authors, 25 were rejected following the "Referee Evaluation Process," and 113 did not pass the "Preliminary Evaluation Phase." In the Preliminary Evaluation Phase, the report prepared by the relevant field editors regarding the submitted articles is evaluated by the Editorial Board during their weekly meeting. It is at this juncture that decisions are made regarding whether to initiate the "Referee Evaluation Process" for the article. Articles rejected at this stage are returned to the authors along with the reasons for rejection. The Preliminary Evaluation Phase takes approximately 10 days.

Dear academicians, I wish to emphasize our eagerness to publish your articles of great value to you. We eagerly anticipate receiving your contributions to our journal. On this note, I hope that this issue of our journal will significantly contribute to the world of science, and I extend my sincerest regards to all of you.

Sincerely,

Dr. Levent ALTINTAŞ

Editor in Chief
